Brand New Book ***** Print on Demand *****.Excerpt from *The Theory of Finance: Being a Short Treatise on the Doctrine of Interest and Annuities-Certain* The following treatise consists of Notes of Lectures on Interest and Annuities-Certain, delivered to the Students for the Intermediate Examination of the Institute of Actuaries. The course of lectures includes also the mathematical theory of Life Contingencies; and the author's intention originally was, to have edited and published the whole of his notes under the title of the *Elements of Actuarial Science*. The absence of such a guide is very much felt by students; and although it has long been the declared intention of the Institute to bring out a complete Text-Book, yet it was thought that a less pretentious work, speedily published, would in the meantime fill up the gap, while afterwards it might serve as a useful introduction to the more elaborate volume. At the close of last year the author accepted the invitation, with which he was honoured by the Council of the Institute of Actuaries, to prepare that part of their Text-Book which is to treat of the Science of Life Contingencies, and his original intention therefore fell to the ground.
