

Outlines of Industrial Chemistry: A Text-Book for Students (Classic Reprint)

By Frank Hall Thorp

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Outlines of Industrial Chemistry: A Text-Book for Students The object of this book is to furnish an elementary course in Industrial Chemistry, which may serve as the ground work for a more extended course of lectures, if desired. The writer has endeavored to describe briefly, within the limits of one moderate sized volume, the more important industrial chemical processes, but omitting matters of detail which properly belong in the larger handbooks. Numerous references are made in the text to periodicals and journals, and to the standard handbooks and encyclopaedias and many special works, where details, lacking in this book, may be found. The bibliographical lists following each section are not complete, but only include those works which will usually be found in most chemical libraries; the references to the journal literature are merely those articles to which the authors attention has been drawn in the preparation of class-room exercises. The diagrams illustrating the text have, in most cases, been drawn as simply as possible, purposely showing only the essential features. In the selection and order of...
